SKILLS

JavaScript (ES6+) TypeScript Python
Java HTML5 CSS3 React.js
Next.js Redux Tailwind CSS
Responsive Design Node.js Express.js
REST APIs GraphQL WebSockets
Microservices MongoDB MySQL
Redis Jest Postman Unit Testing
Integration Testing Docker
GitHub Actions (CI/CD) Vercel Netlify
Nginx Linux AWS (Fundamentals)
Git GitHub Agile/Scrum
System Design
Authentication (JWT, RBAC) SEO

LANGUAGES

English — Professional Proficiency
Hindi — Native

ACHIEVEMENTS

Open to contributions: actively reviewing beginner-friendly GitHub issues and building in public.

Completed 100+ DSA problems on LeetCode and HackerRank, strengthening algorithmic thinking.

Recognised for rapid career progression: promoted from intern to Full Stack Developer within 6 months.

CERTIFICATIONS

Meta Front-End Developer Professional Certificate — Coursera (2024)

MongoDB Node.js Developer Path — MongoDB University (2024)

AWS Cloud Practitioner Essentials — AWS Skill Builder (2024)

JavaScript Algorithms and Data Structures — freeCodeCamp (2023)

Shagufta Fatima

Full Stack Software Developer

SUMMARY

Results-driven Full Stack Developer with 1+ year of production experience building scalable web applications using React, Node.js, TypeScript, and MongoDB. Proven track record at Ronak WebTech delivering RESTful APIs with 25% faster response times and secure JWT/RBAC authentication systems. Proficient in Agile environments, Redux state management, Docker containerisation, and third-party API integrations. Seeking a mid-level Full Stack Developer role to contribute to high-impact engineering teams.

EXPERIENCE

Ronak WebTech May 2025 – Present
Full Stack Developer

- Delivered end-to-end web applications using React, Node.js, TypeScript, and MongoDB in production environments, improving user engagement by 30%.
- Designed and developed RESTful APIs with optimised performance and scalable microservices architecture, reducing average response time by 25%.
- Implemented secure authentication using JWT and RBAC; improved security compliance score by 40%.
- Managed global state with Redux and optimised frontend rendering, improving page responsiveness by 25% across devices.
- Set up CI/CD pipelines using GitHub Actions and Docker for automated testing and deployment, reducing release cycle time by 20%.
- Integrated third-party APIs and handled real-time data workflows with WebSockets, increasing data processing speed by 20%.
- Wrote unit and integration tests with Jest, maintaining 85%+ code coverage across core modules.
- Collaborated in Agile sprints, participated in code reviews, and mentored junior developers.

Ronak WebTech April 2024 – Oct 2024
React Developer Intern

- Progressed from React.js Intern to Full Stack Developer within 6 months through rapid skill development.
- Built scalable React + Node.js + Express.js web applications, contributing to a 15% increase in project delivery speed.
- Integrated REST APIs and managed state with Redux, enhancing application performance and UX consistency.
- Improved UI responsiveness by 25% through component optimisation and lazy loading techniques.
- Deployed applications to Vercel and Netlify; configured environment variables and managed production builds.
- Participated actively in Agile ceremonies: sprint planning, daily standups, and retrospectives.

Flipshope June 2023 – Aug 2023
JavaScript Developer Intern

- Developed a responsive UI using HTML5, CSS3, and JavaScript, improving cross-device user experience.
- Enhanced rendering performance, resulting in a 20% increase in user engagement metrics.
- Implemented SEO best practices (meta tags, semantic HTML, sitemap), leading to a 30% increase in organic traffic.
- Conducted user testing sessions and iterated on design feedback to improve satisfaction scores.

EDUCATION

Mewar University, Chittorgarh, Rajasthan June 2021 – April 2025
B.Tech in Computer Science

PROJECTS

HeyBuddy – AI Personal Assistant (SaaS)

Unified AI assistant for study, coding, and daily tasks; reduced user effort by 40% by consolidating fragmented productivity tools into one platform. Implemented personalised chat history, user authentication (JWT), and contextual AI responses with 30% faster interaction flow. Architected scalable SaaS backend with Express.js and MongoDB; currently serving 200+ active users.

Blogify – Full Stack Blogging Platform

Improved content publishing efficiency by 45% via a structured dashboard with role-based access control (admin / author / reader). Built CRUD operations with optimised MongoDB queries; implemented search and category filtering, reducing content discovery time by 35%. Deployed on Vercel with GitHub Actions CI/CD pipeline for automated testing and zero-downtime deployments.
